The Mandela Effect
**Supernatural
Bible Changes**

And

*The Doctrine Of
The Preservation
Of Scripture.*

JOHN KIRWIN

The sacred texts are being supernaturally altered with God's permission to fulfill end-times prophecy. This is one of the most important events in the entire church age, yet it is going largely undetected by the majority of believers and church leaders.

- The doctrine of preservation has been misunderstood
- God has removed his word as a judgment before
- The terms Bible, scripture, and word are not synonymous
- The word is preserved in our hearts not on paper
- Prophecy predicted this event with stunning accuracy
- Inspiration does not equal preservation
- Theological necessity is a guess, not a doctrine
- The devil has received both permission and power
- God is not a liar if this is happening

WHY HAVE THIS interview

- John has been interviewed on over 50 podcasts.
 - Click [[HERE](#)] to see a partial list.
- The evidence that John has is irrefutable, and statistics show that his interviews are among the most popular podcast interviews.
- Millions of believers now testify to the authenticity of the supernatural Bible changes. As a result, church leaders are going to need to discuss this topic whether they believe it or not.
- Our outreach is well-funded and has launched a worldwide awareness campaign that will eventually reach many key donors within all churches. Church leaders can ignore us, but they won't be able to ignore their key donors when they start asking questions.
- If church leaders do not get ahead of this, they will be perceived as either incompetent or complicit.
- John is a Spirit-filled, born-again believer who has conservative, orthodox theology and 40 years of ministry experience.
- He is the author of three books and the founder of Wakeuporelse PMA, an online Christian fellowship for the Truther community.
